

## Community Safety Partnership – Gwynedd and Anglesey

### What is it?

The community safety Partnership is a group of organisations working together to look at how best we can tackle crime and disorder. The requirement to have such a partnership in place on a local level is enshrined in law, within the Crime and Disorder Act of 1998. A number of organisations have a role to play within the partnership, including the Local Authority, the Police, the Probation services, the Fire and Rescue service and the Health board.

We have responsibilities under the 1998 Act for a number of areas, including – reducing crime and disorder, reducing re-offending, substance misuse and antisocial behaviour. We also have a duty to commission Domestic Homicide reviews in certain specific circumstances. And, we have a duty to prepare an annual assessment of crime and disorder, to guide us as to what needs prioritising.

### What does it do?

Since it was first established over 20 years ago, the partnership has undergone a number of changes. Initially, the work was supported by a number of local grants and dedicated co-ordinators. However, today, we have no local grants, and hugely reduced dedicated resources. So we have adapted to the new landscape, which means working to a large extent with partners across North Wales, to secure opportunities and resources for implementing change locally.

Much of the work since 1998 then has been about mainstreaming community safety into the daily work of all partners. This has resulted in vast changes being witnessed, as services now plan and build into their day to day work the needs of vulnerable people and victims, as a given. Training on a number of issues relating to crime and disorder is now applied as a matter of course, and joint working between agencies is a daily occurrence.

Today, we maintain the developments of the last 20 years, which has seen a reduction in some crime types, but also the awareness of new crimes which need specialist attention. Having established working links and networks across the North Wales region, we are better placed to respond to these emerging challenges.

Locally, we still maintain our joint working groups and constantly look to improve how we work collectively to tackle our areas of responsibility. Below we will show you what structures we have in place to move our work forward, and also what specific areas will be receiving our attention over the next 12 months.

## Community safety structures -

### North Wales region -

In North Wales we have a number of Boards, which bring the required partners together to discuss various aspects of Community safety, these include –

- Serious and organised crime
- Safeguarding (vulnerable people) including radicalisation
- Modern slavery
- Domestic abuse and sexual violence
- Substance misuse (drugs and alcohol)
- Criminal Justice Board
- Offender management

This is not an exhaustive list, but indicates how much work goes on to develop strategic plans, direct and sometimes commission services which meet the needs of all the North Wales Counties. The Boards are constantly reviewed in order to ensure effectiveness, and avoid duplication of effort. A major review is taking place over the next few months, to ensure we make the most of what resources we have, by reducing the number of Boards and meetings

#### Gwynedd and Anglesey -

There are a number of local groups across Gwynedd and Anglesey which then put these strategic visions into practice. The Gwynedd Community Safety partnership will have **oversight** of these work streams locally, but will also look closely at how and where operational practice needs to be improved.

In the next 12 months we will be looking at these areas of work –

- Our training programmes – to ensure we have an informed and enabled workforce
- Our awareness raising programme – understanding the gaps and needs
- Ensuring we develop our working practices in order to meet new demands, such as County Lines (organised drug gangs)
- Understanding what the annual strategic assessment and other completed profiles/analysis are telling us we need to do
- Looking at the contacts and working practices locally, and improving communication and structures where required
- Be part of the regional and national review of governance and structures for Community safety
- Piloting new projects and monitoring the outcomes

### The strategic assessment –

The newly completed assessment for North Wales, tells us that these areas below, need to be prioritised. Because the assessment is based on both the level of risk and the ability of services to respond, not all crime types are a priority at this time. Some types of crime are well understood, and the response of the required organisations is well established and appropriate. This does not mean that we do not address any issues that arises, but it may mean we do not necessarily need to give the issues appropriate attention as a partnership.

- Domestic Abuse and Sexual Violence
- Substance Misuse and all related crimes, such as County Lines and exploitation
- Vulnerable victims
- Reducing re-offending
- Antisocial behaviour
- Serious acquisitive crime including organised crime
