

Assessing the Impact on Protected Characteristics, the Welsh Language and Socio-Economic Disadvantage

For help to complete this form see the *How to Undertake an Equality Impact Assessment* leaflet. You are also welcome to contact Delyth Gadlys Williams, Policy and Equality Officer on ext. 32708 or DelythGadlysWilliams@gwynedd.llyw.cymru for further assistance.

The Council's is required (under the Equality Act 2010) to consider the effect any change in policy or procedure (or the creation of a new policy or procedure), has on people with protected equality characteristics. The Council also has a general duty to ensure fairness and foster good relations. A timely Equality Impact Assessment must be undertaken before making any decision on any relevant change (i.e. which has an effect on people with protected characteristics).

The Council is also required, under the requirements of the Welsh Language Standards (Section 44 of the Welsh Language (Wales) Measure 2011) to consider the effect of a change in any policy or procedure (or the creation of a new policy or procedure), in its opportunities for people to use Welsh and to ensure that Welsh is not treated less favourably than English. This document therefore ensures that these decisions protect and promote the use of the Welsh language.

From April 1st 2021 the Council has a duty to have due regard to tackling socio-economic disadvantage in strategic decisions.

2) Action

2.1 Who are the stakeholders or partners you need to work with to undertake this assessment?

We request to continue to work together with our partners who form the post-16 education Consortium which is Anglesey Council, Grŵp Llandrillo Menai and Secondary Schools in Anglesey.

2.2 What measures have you taken to engage with people with equality characteristics, regarding the Welsh language or with communities (either of place or of need) that live with socio-economic disadvantage?

The laith Cyf company was commissioned to carry out research work on behalf of the Department, conducting interviews with head teachers, focus groups with learners, and gathering the opinions of parents and learners through questionnaires, to enrich and validate the evidence base gathered from desk top research.

The work was carried out between December 2018 and April 2019. A copy of the laith Cyf report is available on the Education Modernisation website www.gwynedd.llyw.cymru/modernisingeducation.

A [Cabinet meeting on 10 March 2020](#) was returned in order to report on the conclusions of that work and to receive permission to start an informal engagement process with a key stakeholder in order to consider the current provision, and highlight the key considerations in order to identify the direction and opportunities to strengthen the post-16 education provision in Arfon. A detailed report entitled [Post-16 Education Overview](#) was drawn up as the basis for the engagement.

In September 2020, a period of informal engagement was held for 6 weeks between 10 November and 22 December 2020. The conclusions of the Informal Engagement process were reported before the [Education and Economy Scrutiny Committee on Thursday, 4th February, 2021](#).

At its meeting on 7 March 2023, permission was obtained from the Cabinet to carry out further work with the stakeholders of the project and in the summer term of 2023, two working groups were held with the head teachers of Arfon secondary schools.

2.3 What was the result of the engagement?

A report was drawn up in order to present the research collected as part of Iaith Cyf's fieldwork - this report can be found on the Modernising Education website.

www.gwynedd.llyw.cymru/modernisingeducation

A detailed report entitled [Post-16 Education Overview](#) was drawn up as the basis for the engagement.

A report will go to the Cabinet on 7 March 2023 reporting back on the informal engagement process, but the main messages from the informal engagement process can be summarised below:

- The main priority is the Quality of Education.
- That ICT should be used to complement and support face-to-face learning.
- That Welsh and bilingual Education is fundamentally important (despite comments to the contrary).
- That the capital money should be used to improve the facilities of our secondary schools in general so that all learners aged 11-18 can benefit from the investment.
- That there is general opposition to any intention to centralize or third the provision
- That there were several comments about the provision of GLIM in terms of quality, medium, and pastoral care.

The conclusion of the engagement process during the summer term 2023, and the clear opinion of the head teachers is that the Post 16 Education provision in Arfon should continue within the 6 secondary schools. The findings of the working groups testify that the situation has evolved from looking at Arfon's post-16 education system on its own and that any change to the system would have an impact on the rest of Arfon's secondary school system.

2.4 On the basis of what other evidence are you operating?

The purpose of the informal engagement was to give all stakeholders and the public an opportunity to submit comments and ideas regarding the post-16 education system in Arfon, within the context of the Council's vision and objectives.

In order to support the engagement, virtual meetings were held with learners, parents, staff and governors in order to give them the opportunity to voice their opinions and ask any questions regarding the field.

We act following the gathering of the views and comments of the stakeholders following this process.

2.5 Are there any gaps in the evidence that needs to be collected?

There are no gaps in the evidence that needs to be collected.

Stakeholders were given the opportunity to express their views on the current provision in the informal engagement period. There was a questionnaire on the Council's website and a dedicated email address and an opportunity to attend meetings that were open to the public in order to give an opinion on the current system.
