

Appendix C - Prudential Indicators 2014/15

1. Background

The Local Government Act 2003 requires the Authority to have regard to the Chartered Institute of Public Finance and Accountancy's *Prudential Code for Capital Finance in Local Authorities* (the Prudential Code) when determining how much money it can afford to borrow. The objectives of the Prudential Code are to ensure, within a clear framework, that the capital investment plans of local authorities are affordable, prudent and sustainable, and that treasury management decisions are taken in accordance with good professional practice. To demonstrate that the Authority has fulfilled these objectives, the Prudential Code sets out the following indicators that must be set and monitored each year.

2. Estimates of Capital Expenditure

The Authority's planned capital expenditure and financing may be summarised as follows.

Capital Expenditure and Financing	2013/14 Revised £'000	2014/15 Estimate £'000	2015/16 Estimate £'000	2016/17 Estimate £'000
Total Capital Expenditure	41,223	35,610	25,574	22,379
Capital Receipts	702	1,192	1,680	230
Government Grants	19,193	12,774	8,111	8,022
Revenue	11,173	9,499	4,049	2,059
Supported Borrowing	4,166	4,122	4,122	4,122
Prudential borrowing	5,989	8,023	7,612	7,496
Total Financing	41,223	35,610	25,574	22,379

3. Estimates of Capital Financing Requirement

The Capital Financing Requirement (CFR) measures the Authority's underlying need to borrow for a capital purpose.

Capital Financing Requirement	31.03.14 Revised £'000	31.03.15 Estimate £'000	31.03.16 Estimate £'000	31.03.17 Estimate £'000
Total CFR	168,430	173,714	178,437	182,813

The CFR is forecast to rise by £14.383m over the next three years as capital expenditure financed by debt outweighs resources put aside for debt repayment.

- 4. Gross Debt and the Capital Financing Requirement:** In order to ensure that over the medium term debt will only be for a capital purpose, the Authority should ensure that debt does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years. This is a key indicator of prudence.

Debt	31.03.14 Revised £'000	31.03.15 Estimate £'000	31.03.16 Estimate £'000	31.03.17 Estimate £'000
Borrowing	112,469	111,267	131,267	129,500
Finance leases	15	0	0	0
Total Debt	168,988	171,984	181,318	182,660

Total debt is expected to remain below the CFR during the forecast period.

5. Operational Boundary for External Debt

The operational boundary is based on the Authority's estimate of most likely, i.e. prudent, but not worst case scenario for external debt. It links directly to the Authority's estimates of capital expenditure, the capital financing requirement and cash flow requirements, and is a key management tool for in-year monitoring. Other long-term liabilities comprise finance lease, Private Finance Initiative and other liabilities that are not borrowing but form part of the Authority's debt.

Operational Boundary	2013/14 Revised £'000	2014/15 Estimate £'000	2015/16 Estimate £'000	2016/17 Estimate £'000
Borrowing	175,000	175,000	175,000	175,000
Other long-term liabilities	0	0	0	0
Total Debt	175,000	175,000	175,000	175,000

6. Authorised Limit for External Debt

The authorised limit is the affordable borrowing limit determined in compliance with the Local Government Act 2003. It is the maximum amount of debt that the Authority can legally owe. The authorised limit provides headroom over and above the operational boundary for unusual cash movements.

Authorised Limit	2013/14 Revised £'000	2014/15 Estimate £'000	2015/16 Estimate £'000	2016/17 Estimate £'000
Borrowing	195,000	195,000	195,000	195,000
Other long-term liabilities	0	0	0	0
Total Debt	195,000	195,000	195,000	195,000

7. Ratio of Financing Costs to Net Revenue Stream

This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet financing costs, net of investment income.

Ratio of Financing Costs to Net Revenue Stream	2013/14 Revised %	2014/15 Estimate %	2015/16 Estimate %	2016/17 Estimate %
General Fund – assuming 3.5% increase in Council Tax for 14/15 and going forward	5.84	5.35	5.60	5.78
General Fund – assuming 3.9% increase in Council Tax for 14/15, and 3.5% increase going forward	5.84	5.34	5.59	5.78

8. Incremental Impact of Capital Investment Decisions

This is an indicator of affordability that shows the impact of capital investment decisions on Council Tax levels. The incremental impact is the difference between the total revenue budget requirement of the current approved capital programme and the revenue budget requirement arising from the capital programme proposed.

Incremental Impact of Capital Investment Decisions	2014/15 Estimate £	2015/16 Estimate £	2016/17 Estimate £
General Fund - increase in annual band D Council Tax	0	0	0

9. Adoption of the CIPFA Treasury Management Code

The Authority adopted the Chartered Institute of Public Finance and Accountancy's *Treasury Management in the Public Services: Code of Practice 2011 Edition* at its full Council meeting on 3rd March 2011.
