*The 165 is the number of clients that were open on RAISE in quarter 3 2016/17 where their client category was marked as carer. Some of these may be open for the whole quarter, opened during the period or closed

** The 114 were identified when filling in the Core Data form on the client. These could be new clients or ones already identified. There is no means of making that link back to see who the carer is or if they have already been identified and there is no means of breaking this down into carers ages.

*** The 90 represents a very specific cohort of carers. These were receiving carer Services on RAISE Service Placements on the first week of September 2016 according to the RAISE Financial category
