Councillor Robert Llewelyn	8	8/1	<p>The new plan has to take account of all the new information that has been given by the Welsh Government on the need for Wales to become A GLOBAL RESPONSIBLE COUNTRY TO SAFEGUARD OUR FUTURE GENERATIONS. THIS MEANS A COMPLETE RE- WRITING OF THE PLAN - A REHASHING OF THE OUTDATED PLAN WILL NOT SERVE THIS PURPOSE.</p>	<p><b>Note the comment</b></p> <p>It is not the purpose of the Review Report to detail any specific changes that will be made to the Plan. Climate change and sustainable development considerations are central to the review process. Consideration will be given to all Welsh Government strategies, plans, policies and guidance relating to climate change that are current when preparing the Replacement JLDP. It is noted that the principles of the Well-being of Future Generations (Wales) Act 2015 are set out in part 2.6 to 2.8 of the Review Report. The principles of the Well-being Act will certainly be taken fully into account within the preparation of the Replacement Plan.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Councillor Mike Stevens	12	12/1	<p>The Well-being of Future Generations (Wales) Act 2015. The 2010 JLDP reviewed but not changed in 2017 is completely outdated. Given the changes the World and Gwynedd has undergone since March 2020 owing to the Covid-19 pandemic. To base the future of lives, hopes and aspirations of people and the development of Gwynedd on a plan which is 21 years old is preposterous and completely contrary to the 2015 Well Being Act.</p>	<p><b>Note the comment</b></p> <p>The Well-being Act will be a central theme in the review process. There is the requirement for Local Development Plans to have regard to the Act in the review process. The Replacement JLDP will be required to reflect the aspirations of the Act. A key aspect of the Well-being Act is public health and as such, the latest version of Planning Policy Wales gives reference to 'Building Better Places', which pinpoints the most relevant policy priorities and actions to aid in the recovery from the Covid 19 pandemic. Ifan Hughes, Isle of Anglesey County Council	14	14/1a	Point 2.15 of the report – Need to change the TAN 15 date following the announcement by the Welsh Government.	<p><b>Accept the comment</b></p> <p>The adoption date of the revised TAN 15 has been delayed until the middle of 2023. This change in timescale for adoption will be taken into consideration.</p> <p><b>Recommendation</b> Revise paragraph 2.15 as set out below.</p> <p>A new version of TAN 15 was due to come into force on 1<sup>st</sup> December 2021. Flood zones are outlined within the document and there will be different zones for flood risk from rivers, sea and surface water. The TAN puts much more emphasis on climate change and how to ensure that issues associated with this are avoided, restricted or mitigated. The updates and changes to TAN 15 include a greater focus on the development plan, and details on how to prepare effective Strategic Flood Consequences Assessments. Development advice maps will be replaced with a new Flood Map of Wales. In November 2021 it was announced by the Welsh Minister that the coming into force of the new TAN15 and Flood Map for Planning would be delayed until 1st June 2023. The Minister also outlined the requirement for every LPA to complete work to review, within the next 12 months,</p>

Peter Nicholas Horsley, Mineral Product Association Cymru/Wales	18	18/1a	Whilst this section reflects changes to Technical Advice Notes, it is important to remember that documents such as MTAN1 are also relevant. Mr & Mrs Lindsey Parry	20	20/1	The Council's recognition that the Replacement Plan must respond to legislative changes, including the adoption of an updated Planning Policy Wales in February 2021, is supported. Mr & Mrs Lindsey Parry (c/o Victoria Morrison, Claremont Planning)	20	20/2	The identification of climate change as being a key issue which will require consideration through the Replacement Plan is strongly supported. The updated February 2021 Planning Policy Wales (PPW) emphasises the role of the planning system in tackling the climate emergency, establishing within Paragraph 3.33 that the most important decision the planning system makes is to ensure the right developments are built in the right places. Within Paragraph 4.11, the PPW sets out that the planning system should enable people to access jobs and services through shorter, more efficient, and sustainable journeys by walking, cycling, and public transport. This Section goes on to note that by influencing the location, scale, density, mix of uses, and the design of new development, the planning system can secure accessibility in a way which supports sustainable development and tackles the causes of climate change.	<p><b>Note the comment</b> Climate change is addressed in paragraphs 2.59 - 2.62 of the report. Further consideration of these issues will be given as the process of preparing the Replacement Plan progresses.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

A Welsh Language Statement is not sufficient. There are also shortcomings that should be corrected not only in the methodology of the language impact assessment but also in the way in which the methodology and the interpretation of statistics are interpreted in reaching conclusions. Ieuan Wyn, Cylch yr Iaith	46	46/2dd	3.67 The overall threshold for excesses set out in the SPG of 15% is far too high. Even a 5% threshold would mean that one in twenty dwellings would be beyond the reach of local people; and the threshold of 15% could mean that the percentages of second/holiday homes could increase massively in communities that were not so affected in this regard meaning that buyers of properties for a second home or holiday accommodation may would buy in the nearest community that has not reached the threshold, increasing the percentage there.	<p><b>Note the comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and tourism policies and the issues raised in the comment will be considered when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Ieuan Wyn, Cylch yr Iaith	46	46/2g	3.71 We agree that the policies in the Joint LDP relating to tourism need to be 'revisited' but must be revisited in the light of the growing evidence about the effects of over-tourism on the communities of the LDP area, as well, particularly given the huge increase in visitor pressure over the last three years. Brexit and the Covid crisis have highlighted fundamental weaknesses in regulatory provision in relation to tourism, and the unsoldness of communities in the face of unmet progress for second homes, holiday accommodation, tourism facilities and additional infrastructure. The current situation must be confronted, addressed, the current problems counteracted and their progress blocked	<p><b>Note the comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and tourism policies and the issues raised in the comment will be considered when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Bourne Leisure (c/o Tobias Robinson, Litchfields)	47	47/2a	Whilst the emerging LDP will need to reflect the emerging TAN15 it is also important that it provides policies that cover nuanced scenarios that are not addressed by this national guidance. For example, local policy support should be provided for appropriate development at existing holiday parks that are located in Flood Zone 3 (Rivers and Seas) where this would not create additional risks from flooding, as demonstrated by a Flood Consequences Assessment. The emerging TAN15 provides guidance for changes of use but is silent on guidance on redevelopment within the same use class/same use.	<p><b>Note the comment</b> It is not the intention of the Review Report to detail any specific changes that will be made to the Plan. Bourne Leisure (c/o Tobias Robinson, Litchfields)	47	47/2b	The emerging LDP should also be clear that development on undeveloped parcels within the operational boundaries of holiday parks should be treated as though it was previously developed land so that appropriate development could be allowed outside of Zone 1. Local policy provision for appropriate development that does not generate additional flood risk would not conflict with the overall objectives of the emerging TAN. This provision would allow operators to continue to invest in their parks and resorts. In turn, it would contribute towards any Council objectives to support the rural economy and would align with national planning policy support for the tourism industry.	<p><b>Note the comment</b> It is not the intention of the Review Report to detail any specific changes that will be made to the Plan. John Griffiths	5	5/3	There needs to be a wider view of developments along both sides of the Menai Strait. There is a casual and monocular view of each new development. The two counties, NRW and the relevant local councils should be required to comment on all proposals. There is a creeping and detrimental cumulative effect of looking at each proposal. There seems to be no overall strategy that has its primary aim of conservation and biodiversity. The new pedestrian walkway and planning proposals at Ynys Y Big demonstrate a disregard for the protection of wildlife as all agencies fail to engage considerably. There is a failure to examine why a development is needed. So many of the houses along the Menai Strait are second homes and are let out. More applications are being made to add to light pollution and tree loss. Anglesey in particular need to consider the impact of development on the visual effect from Arfon.	<p><b>Note the comment</b> The duty to consult on planning applications is contained within the Town &amp; Country Planning (Development Management Procedure) (Wales) Order 2012 and Development Management Manual (Revision 2 – May 2017). Peter Nicholas Horsley, Mineral Product Association Cymru / Wales	18	18/3	<p>Revised strategic policies on renewable technology may need to consider CCUS within the Local Plan review. We welcome reference to the Regional Technical Statement, 2nd Review. We emphasise how important it is to reflect that the figures used in the RTS have a baseline of 2016 and may need to be reviewed to ensure both the amount of mineral worked since 2016 and the revised aspirations of the plan, particularly if the revised LDP are taken in to consideration. This may have an impact upon demand, the need for additional reserves and upon the safeguarding of mineral resources. It is important that the plan is supported by a robust evidence base, including, annual reports from the North Wales RAWP. Without these policy development will be in a vacuum.</p> <p>The report makes reference to a Sub-Regional Statement of collaboration. We are not aware that such a document has been prepared. This would need to be considered by the RAWP. Minerals provision needs to be reflected in the table in Section 4.3 of the Review Report</p>	<p><b>Note the comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and minerals policies and the issues raised in the comment will be considered when revising the evidence base. The evidence base will be informed with the most up to date information available at the time.</p> <p>In terms of the comment regarding the Sub-Regional statement, the Review Report in paragraph 3.118 stipulates the requirement for Local Mineral Authorities to collaborate. Further consideration is being given to the requirement of a Sub-Regional Statement of collaboration.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Sion Wyn Evans, Caernarfon Royal Town Council	19	19/3dd	3.82 - 3.85 - Location of Housing - The Council considers that with any new housing development, and determining the location of the development, it should be ensured that the infrastructure is in place in advance. In recent years new housing estates have been built in Caernarfon and the schools are full. Before building such housing estates, it should be ensured that there is sufficient space in the schools for the children, and also to consider the demographics of the area.	<p><b>Note the Comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issues raised in the comment will be considered when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Mr & Mrs Parry c/o Claremont Planning	20	20/3	It is considered that Part 3 of the Review Report appropriately identifies the issues to be reviewed when preparing the Replacement Plan. Claremont Planning however raise concern as to the Council's proposals regarding housing scale and growth set out within Section 6.4 of the Review Report. Whilst supportive of the need to ensure that the Replacement Plan is informed by an up-to-date assessment of housing need, however, the Council's assertion that the current growth figures are not appropriate in light of the Council's continued under-delivery of housing cannot be supported. The Council should instead afford a more detailed review to their spatial strategy and site selection process to ensure that those sites allocated are viable, and deliverable, within the timescales identified. If settlements which have already received their apportioned levels of growth are the most sustainable locations for development, then the further provision of growth at these settlements should be supported by the Council. The Review Report also establishes that it will be necessary for the Replacement Plan to consider the suitability of housing allocations. It is imperative to ensure that housing allocations are deliverable and site capacities informed by detailed technical assessments which accurately account for site constraints.	<p><b>Comment Partly Accepted</b> It is acknowledged that the second sentence within paragraph 3.80 of the Draft Review report could be interpreted that a review of the housing figure is required due to the plan not delivering the expected level of growth. The Housing Growth section of Planning Policy Wales (PPW) (paragraphs 4.2.3 to 4.2.9) outline the matters that need to be considered in relation to the growth level included within a development plan. The remaining parts of paragraph 3.80 address these matters however for completeness reference to PPW is included within the paragraph.</p> <p>A call for sites as part of the process of preparing the Replacement Plan will be a undertaken and the suitability of any sites will be assessed under this process.</p> <p><b>Recommendation</b> In light of this it is recommended that the second sentence within paragraph 3.80 is deleted as shown below:</p> <p>3.80 The annual development level has not met the corresponding figure in the housing trajectory in any year since the Plan was adopted and has only met the average development figure once (in 2018/19). <del>It is therefore considered that the growth figure needs to be re-looked at to consider its suitability and also review</del></p>

			<p>In light of the above, the land opposite Tywyn Hospital is considered to be a highly suitable site for allocation for residential development through the Replacement Plan.</p>	<p><del>the method of establishing this figure.</del> Consideration should be given to whether the rationale and the different elements involved in the establishment of the growth figure remain suitable and also assess if there are new aspects that also need to be considered. It is important to undertake this work in the context of the requirements of the Development Plan Manual (Edition 3, March 2020) <b>and PPW (Ed 11 Feb 2021)</b>, in terms of considering matters such as, for example, the latest population and household projections, past development rates, migration patterns and considerations in relation to the Welsh language. It will also be important to consider the influence of the Strategic Development Plan for the North Wales region as a hub in Future Wales.</p>
<p>Gareth Thomas, Natural Resources Wales (NRW)</p>	<p>24</p>	<p>24/3a</p>	<p>We note within paragraph 3.30 of the draft Review Report that “the emerging revised TAN 15 will need to be considered as part of the Plan process”. We agree with this statement but would also advise that an updated/replacement Strategic Flood Consequences Assessment (SFCA) will be required, or clear justification should be provided as to why an updated/replacement SFCA is not required. We refer you to the Minister for Climate Change’s letter dated 23 November 2021, which states that the SFCA should “be informed by the Flood Map for Planning”. We also refer you to the letter from Welsh Government’s Chief Planner (dated 15 December 2021) which states: “When plans are reviewed, the flood risk considerations that feed into the settlement strategy and site allocations must be in accordance with the new TAN 15 and the Flood Map for Planning. The SFCA will be the principal source of evidence to inform those elements of the plan and locally specific flood risk policies”.</p>	<p><b>Note the Comment</b> Updated strategic flood consequences assessments will have to be prepared as part of the replacement plan’s evidence base. Rural Wales (CPRW)			evidence in both applications and appeals. An adverse impact, notably on the landscape, only comes to be realised too late to prevent the cumulative damage. This has been acknowledged to some extent in guidance for caravan sites (TWR3/5) and renewable energy (ADN1/2) and through landscape sensitivity and capacity studies. Consideration of potential cumulative impacts should be a more general requirement for all relevant developments, including, for example, house rebuilds. Noel Davey, Council for the Protection of Rural Wales (CPRW)	35	35/3b	Sustainable Development Policies - The overarching policies requiring consistency with the principles of sustainable development (especially PCYFF 2,3,4) apply to most planning developments. These have an inevitable degree of vagueness and subjectivity. They replace the larger number of more prescriptive policies applied in previous LDPs to specific types of development. They seem to us to be introducing an element of arbitrariness in some decisions in areas where a more prescriptive policy would leave both applicants and the planning office in a clearer position. Noel Davey, Council for the Protection of Rural Wales (CPRW)	35	35/3c	Control of scale of house (especially second home) rebuilds both within and outside settlement development boundaries – TAI 5 restricts new housing in specific local, rural and coastal villages to local/affordable need and in terms of maximum size. TAI 6 restricts new houses in rural clusters to affordable need and appropriate size. TAI 13 specifies (#7) that replacement dwellings (rebuilds) outside development boundaries should be of similar scale, size and footprint to the original dwelling. AT 3 requires that developments of significant non-designated heritage assets are treated appropriately. These policies do not provide adequate control of the appropriate scale, height, massing, design, etc of: *Replacement houses within development boundaries *Extensions to houses both within and outside	<p><b>Note the Comment</b> Although it is not the purpose of the Review Report to detail and specific changes to the Plan, as part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issues raised regarding the scale of housing in the plan area will be taken into account when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

			development boundaries. Inappropriate developments with adverse visual impact are being permitted in the judgement of many, especially in the case of holiday home rebuilds and extensions because there are not sufficiently robust, explicit and consistent policies applying. There is a perceived inequity between the strict size limits applied to affordable/local newbuilds and the frequent disregard of appropriate limits on open market house rebuilds and extensions. Noel Davey, Council for the Protection of Rural Wales (CPRW)	35	35/3ch	Caravan site policies, monitoring and enforcement - Touring caravan sites widely operate as seasonal 'static' sites, ignoring the requirement in TWR 5 that tourers should be removed from the site when not in use (and not just in winter) and have limited physical connection with the ground. The meaning and intention of the policy should be clearer. The JLDP is doing little to discourage a trend for touring caravans to morph into static units. The present capacity of the Gwynedd planning service appears to be insufficient to monitor caravan sites and enforce policies effectively. It is questionable whether alternative accommodation/glamping unit sites can be treated adequately under the same policies as caravan sites. (Ref: Draft Review 3.69)	<p><b>Note the Comment</b> However policy TWR 5 is not relevant to existing caravan sites that have had planning permission under a previous policy.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Park Leisure Ltd, c/o Litchfields	23	23/3a	Tourism should be recognised positively within the vision and strategic objectives in replacement plan due to its significant contribution to the local economy and national planning policy support for the tourism industry. PPW provides support for the tourism industry within the Well-being goals, established holiday parks in Gwynedd and Anglesey provide significant employment opportunities for local people, which in turn allows local people to live locally and for the Welsh Language to be a key part of day to day life. Dolgellau and Bala are much smaller settlements than Tywyn but are given far more focus and investment.</p> <p>The evidence gathered by the Planning Policy Unit for the 2017 review was very poorly conducted. When I asked a planning officer when did they visited Tywyn to gather their evidence he said they got it from Google and various web sites. That is an appalling shoddy way of making vital decisions that effect and determine the futures of children a young people in the south of the county.</p> <p>A thorough detailed review must now be undertaken. The designated "urban" centres receive considerably more investment than local service centres. Why is there no settlement south of Porthmadog designated an "Urban" centre? Tywyn must now be designated an "Urban" centre.</p>

Y Cyngorydd Mike Stevens	12	12/5	The current JLDP needs completely scrapping not simply reviewed. Joint working with Anglesey has been a disaster for the south of Gwynedd. Collaboration with neighbouring counties is very important however Gwynedd has a much larger boarder with Conwy and Powys than with Anglesey so why then are we tied at the hip to Anglesey? It has been intimated by some Councillors that the Welsh Government forced Gwynedd to have a joint working relationship with Anglesey. That is not true. The Welsh Government suggested joint working but there was no compulsion. For future generations in the south we need a new "Gwynedd Development Plan" with focus on the whole of this county from north to south and east to west.	<p><b>Note the comment</b> The future of the Joint Planning Service is not part of the Local Development Plan process.</p> <p>Both Councils believe that there is a strong cross-boundary relationship between them in terms of function, economy, infrastructure and policy. This means that collaboration on a development plan made planning and economic sense.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Mr & Mrs Lindsey Parry	20	20/5	The conclusion that a full review of the Local Plan will be required is supported by Claremont Planning. Undertaking a full review of the Local Plan will ensure that the Development Plan for the county is informed by the most up-to-date legislation and national planning policy whilst also responding to contemporary issues including climate change. Claremont Planning however challenge the Council's rationale underpinning their decision to undertake a full Local Plan review. Within Section 6 of the Review Report the Council assert that there are no substantive issues highlighted within their Authority Monitoring Reports, finding that contextual changes associated with the COVID-19 pandemic, and Brexit necessitate a full Plan review	<p><b>Note the Comment</b> Although it is not the purpose of the Review Report to detail and specific changes to the Plan, as part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issues raised regarding the scale of housing in the plan area will be taken into account when revising the evidence base. 			<p>instead. Claremont Planning however consider that the Review Report illustrates that the Council is consistently underdelivering housing and as such the adopted Local Plan's spatial strategy is not being implemented effectively. This under delivery is also having implications on other areas of the Plan and indicators of the Plan's success, such as affordable housing. Paragraphs 3.96-3.98 of the Review Report establish that a total of 201 affordable units will need to be delivered by March 2021 in order to meet the Council's 1,572 affordable units by 2026 target. Within these paragraphs the Council considers that this slippage has occurred on sites designated for housing in the Plan where these sites would have been expected to provide a percentage of affordable housing. Claremont Planning therefore raise concern that the Council has failed to acknowledge both their under delivery of housing, but the wider implications of this on the affordability of housing within the County as part of their Review Report. Indeed, Claremont Planning consider that the ineffective implementation of the adopted Local Plan's spatial strategy alone would be sufficient to warrant a Local Plan review. Although responding to contextual issues and ensuring the Plan is based on the most recent national planning policy is pertinent, it is considered that the Local Plan review must therefore also include a review of the county's housing requirement and undertake a more detailed analysis of promoted sites to ensure that all allocations are deliverable in the broadest sense but also that the level of housing proposed through each allocation can realistically be delivered once any technical constraints have been considered.</p>

Rhys Tudur	39	39/6	A more detailed analysis of language statistics rather than complete dependency on the census. The relative sustainability of communities needs to be looked at to consider what the finer will be in terms of Welsh speakers in years. There is a need to create forecasts of numbers of speakers rather than relying on collected and outdated stings. The document does not propose that language strategies need to be strengthened and is much needed in the face of the fall in the percentage of Welsh speakers and the failure of our current strategic policies. A better strategy is needed for preventing contraction in Welsh-speaking areas.	<p><b>Note the comment</b> As part of the process of preparing the Replacement Plan it will be necessary to assess any new statistics relating to the Welsh language to ensure that the Plan is based on the most relevant published information. John Griffiths	5	5/7	<p>I have two points which may seem relatively trivial after consideration of the need to plan for the future of the planet. However, I have observed that there is a distrust in the planning processes. This distrust can often be based on decisions that are Delegated and/or when the views of Community Councillors are disregarded. In my area alone (Seiriol ward) there are many things that happen with a total disregard to the views of the population who generally would like to see less development and more conservation.</p> <p>The second point is that the Lairds site in Beaumaris needs to become a priority for proper scrutiny. It has the potential for housing and employment and yet fails to attract the attention of our County Councillors.</p>	<p><b>Note the Comment</b> Public consultation and involvement is a legislative requirement in the process of developing Local Development Plans. It is a requirement for the public, relevant stakeholders and statutory consultees to be consulted at different stages of the plan-making process. The Welsh Government's planning policy, contained in Planning Policy Wales encourages local planning authorities and applicants to discuss proposals before a planning application is formally submitted. With any application consideration is given to all relevant material planning considerations before a decision is made. However, the issue of public consultation relating to individual planning applications is not relevant to the process of producing the Replacement Plan. With regards to the Lairds site in Beaumaris, it is not the purpose of the Review Report to detail any specific changes that will be made to the Plan.</p> <p><b>Recommendation</b></p>

Cnllr Robert Llywelyn Jones	8	8/7	<p>This review has come at a crossroads for our world - WE EITHER CHANGE THE WAY WE LOOK AT PLANNING MATTERS OR CONTINUE TO GO AFTER PLEASING UNSCRUPULOUS DEVELOPERS.</p> <p>I have tried all my council life ( over 40 years) to make our Ynys Mon Council see sense only to be laughed at. I will not hold my breath on any change in Council thinking as it needs brave men and women to admit they got it wrong and to change their approach to planning matters. Even now I went to my local library to see if they had a copy of the review to the JDP review only to be told no copy available.</p> <p>Officers hold all the cards and I find it difficult to see any radical change happening in their attitude towards saving our planet. In addition, I put 3.25 hectares of land that we have opposite and Macpella Cemetery, Penygroes before you in 2015/2016 (SP155) which the department called it at that time. This land is suitable for approximately 120 houses. Guto Gwyn	11	11/7	<p>In the refreshed plan, it would be useful to include the Six Policy Goals mentioned within the Welsh Government’s ‘Health and Social Care in Wales – COVID-19: Looking Forward (2021)’ document. This strategy outlines various priorities including a need to build new ways of working, and develop opportunities to do things differently following the pandemic. In addition, ‘long-Covid’ effects and impacts will need to be assessed and anticipated, which would in turn assist with our ability to build resilience within our public services, in tandem with a robust recurring vaccination programme to protect the most vulnerable in our society.</p>	<p><b>Note the Comment</b> There is the requirement for Local Development Plans to have regard to new relevant legislation. Cnllr Mike Stevens	12	12/7	<p>The review cannot be just another rehash of the 2010 development plan that was adopted in 2017. There seems to be a great reluctance by Planning officers to end the joint working with Anglesey. There can be no justification in continuing with what may have worked in 2010 but is clearly not fit for building a thriving dynamic Gwynedd for the future in line with the Well Being of Future Generation (Wales) Act 2015. Development in Tywyn has been stifled by land areas being designated as flood plains. Areas that have never flooded in living or historic memory are discounted for development. The justification for this by planning policy makers is “modelling”. This method of deciding planning policy is flawed as it is all too easy to input data to give the required answer. No consideration is given to reality of the location and history of natural factors. A clear example of this is a land area from Tywyn high street leading north to the Dysynni river over a mile away. The whole area has been designated a flood plain threat from the Dysynni river. That is preposterous as the river is tidal and this is the mouth of the river flowing into the sea. It is almost impossible for this land</p>	<p><b>Comment not Accepted</b> The future of the Joint Planning Service is not part of the Local Development Plan process.</p> <p>The areas of flooding referred to in this comment are those identified by Natural Resource Wales as part of the Flood Map for Planning and therefore is not the responsibility of the Joint Local Development Plan.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

			to flood from the river one mile up to Tywyn high street and to claim it is a possibility undermines the whole science of flood modelling.	
Gruffydd Meredith	22	22/7a	<p>1. Gwynedd/Anglesey and Wales as a whole should follow the example of the island of Guernsey (and a large number of other countries) by dividing all Gwynedd/Anglesey housing into two cohorts - 90% into a local/national priority market cohort for the people of Gwynedd/Anglesey, and the other 10% into an open market cohort for anyone else. This would mean that 90% of houses, whether new build or second/summer houses available for purchase, would prioritise the local/national market for welsh citizens/permanent residents, and the remaining 10% of houses, whether new or second/summer homes, would be open market housing and available to anyone on a first come, first served basis. It is proposed that any person who is in employment or has been offered permanent full-time work, together with their partners/families, would be able to join, as they choose, with either the list of purchase or rental of local priority housing – whatever their status otherwise. Anyone caring for or being cared for by partners or family members who need permanent care would also be eligible for local purchase or rental priority. By working alongside councils and community groups on the ground the county authorities across Gwynedd/Anglesey would need to decide how much of the 90% of local/national market housing would be available to local residents within the county/counties and how much would be available to residents from the rest of Wales – for example 70% for local residents, 20% for people from the rest of Wales. In more urban areas where people move in and out more regularly, this scale could be set at 45% / 45% or 20% locally and 70% nationally for example. Any new houses built and are part of the 90% figure of the local/national market would then retain this local/national ownership priority clause.</p>	<p><b>Note the Comment</b> Although it is not the purpose of the Review Report to detail and specific changes to the Plan, as part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issues raised regarding the scale of housing in the plan area will be considered when revising the evidence base. Gruffydd Meredith	22	22/7b	2. It is hoped that the same targets and the principle of local/national priority would be set in terms of housing renting in general, with needs locally highlighted in a reasonable, moderate and fair way. As mentioned, it is proposed that any person who has been offered permanent full-time work, together with their partners/families, would be able to join, as selected, with either the local priority housing purchase or rental list - regardless of their status otherwise, with anyone else with a more short-term or part-time job offer able to join the rental priority list (and being able to buy after ten years if not born and with one of them born in Wales). As mentioned, any carers of partners or family members who need permanent care or are cared for themselves would also be eligible for local purchase or rental.	<p><b>Note the Comment</b> Whilst the Development Plan is not responsible for social or private sector renting policy when re-visiting and the objectives and vision, strategy and policies of the Plan we will hold discussions with Stakeholders in the housing field.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Gruffydd Meredith	22	22/7c	3. Social housing for the needy should follow the same targets and local/national priority principle where possible, with local priority needs highlighted and prioritised in a way that is reasonable and fair. All social housing and social housing associations as well as the National Parks should be brought under the control of the county authorities (in this case Gwynedd/Anglesey) and made accountable to those democratic authorities. There is also a need to put a stop to the situation where people in holiday caravans etc are able to claim social housing for the needy by becoming local or homeless/needy after living in a caravan for a certain period of time without conclusive evidence of their local connection.	<p><b>Comment not Relevant</b> These issues are outside the remit of the New LDP.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Rhys Tudur, Nefyn Town Council	39	39/7	It would be beneficial for the Council to be more long-term in making assumptions of the numbers of Welsh speakers in the future and also to gather evidence of the people who speak Welsh in their household. There must be stronger strategic policies that prevent applications that are idly related to our language and culture therefore forcing all applications to reinforce the Welsh language rather than damaging it. To date applications that do not create "significant harm" are allowed and the cumulative impact of this with a number of applications erodes the Welsh language and causes significant harm to it. Due to the fragile situation of housing affordability for local people a Gwynedd-wide policy is needed to ensure that new housing developments are all with a "principal private residence" condition this is essential to ensure that the new stock of housing is not used as summer housing. The creation of such a policy would not allow further harm to our communities.	<p><b>Note the Comment</b> As part of the process of preparing the Replacement Plan it will be necessary to assess any new statistics relating to the Welsh language to ensure that the Plan is based on the most relevant published information. Also expand the Local Market Housing Scheme throughout the county so that housing is on new estates which are currently open market housing are becoming limited to people local/Welsh speakers and sold at a price within their reach. (This would avoid attracting influx of people and also allow an opportunity to make second short-term homes and holiday homes from new housing on estates. Would need appropriate mechanism to measure demand for Local Market Housing).</p>	<p><b>Note the Comment</b> The review of the JLDP will certainly consider any link between housing provision and impact on the Welsh Language. In reviewing the Plan we will consider the performance of existing housing policies and strategy since the Plan was adopted. In this respect the review will consider documents that have been prepared and relevant research that has been undertaken. There will also be full consultation with other Anglesey and Gwynedd Council departments, such as the Research Unit, along with relevant external stakeholders.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Gruffydd Williams	40	40/7ch	<p>Buying/Occupying Empty Houses and buying houses on the open market: The County Council/Councils (or agencies on his/her behalf) to buy empty properties with a view to letting the houses to local people/Welsh speakers. A plan of the kind</p>	<p><b>Comment not Relevant</b> However, the issue of the purchasing houses by both Local Authorities is not relevant to the process of producing the Replacement Plan.</p>

Gruffydd Williams	40	40/7d	'Buying a Home – Wales' Scheme. (Only 5 applicants benefited from the scheme in 2020.) The scheme should have wider use and provide a loan much higher in terms of the equity percentage of properties for local people/Welsh speakers.	<p><b>Comment the Relevant</b> However, making amendments to the Buying a Home – Wales Scheme is outside the remit of the process of producing the Replacement Plan.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Gruffydd Williams	40	40/7dd	Mortgage Scheme. Gwynedd Council has the right and the means to provide mortgages as a scheme to protect and promote Welsh-speaking communities.	<p><b>Comment not Relevant</b> However, the provision of mortgages to promote Welsh-speaking communities is outside the remit of the Replacement JLDP.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Gruffydd Williams	40	40/7e	Other comments: Adopt Snowdonia National Park Authority Policy for the protection and substantial demolition/rebuilding/refurbishment of traditional houses and buildings. Expand the floor size of affordable housing so that they are more suitable. Provide more plots for the Wales Self Build Scheme. Add the right to convert barns into dwelling houses subject to family requirements. The right is not part of the Local Development Plan, but areas in England have the right under Permitted Development Rights under the Location Act. Add the right to convert holiday units into dwelling houses (Condition 106 for local people/Welsh speakers.)	<p><b>Note the Comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issue raised regarding the scale and location of housing in the plan area will be considered when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Gruffydd Williams	40	40/7f	Restrict the right of County Council officers to be able to allow changes to planning applications at their own discretion.	<p><b>Comment not Relevant</b> This is not relevant to the process of producing the Replacement Plan.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Gruffydd Williams	40	40/7g	The installation of Welsh or bilingual information signs and instructions (with Welsh in front of or above English) outside and inside business premises is a condition of receiving planning permission.	<p><b>Note the Comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issues raised in the comment will be considered when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Gruffydd Williams	40	40/7h	With developments that intend to employ, local employment and consideration of the Welsh language should be a condition of planning permission, with the exception of posts that can be clearly demonstrated that the appropriate specialisms are not available locally. With developments offering employment, the applicant should provide robust evidence of the numbers proposed to be employed, so that Gwynedd Council cannot be misled with empty promises.	<p><b>Note the Comment</b> As part of the process of preparing the Replacement Plan it will be necessary to re-visit the Plan's objectives and vision, strategy and policies and the issues raised in the comment will be considered when revising the evidence base.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>
Iwan Edgar	41	41/7	More applied consideration of the Well-being Act and how those requirements are discussed	<p><b>Note the Comment</b> The Well-being Act will be a central theme in the review process. There is the requirement for Local Development Plans to have regard to the Act in the review process. The Replacement JLDP will be required to reflect the aspirations of the Act. A key aspect of the Well-being Act is public health and as such, the latest version of Planning Policy Wales gives reference to 'Building Better Places', which pinpoints the most relevant policy priorities and actions to aid in the recovery from the Covid 19 pandemic.</p> <p><b>Recommendation</b> No changes to the Review Report in light of this comment</p>

Wendy Jakeman	44	44/7	<p>Keep Gwynedd Green.            Treasure it's Natural Beauty and put that at the Heart of ALL YOUR POLICY DECISIONS.            P.S. Clean up building regulations. I have evidence of shoddy, lazy practises being carried out in the name of the biggest social housing provider in the area.</p>	<p><b>Note the Comment</b>            Full consideration will be given to environmental issues during the preparation of the Revised Plan. In terms of building regulations issues, it is noted that this is not a matter for the Replacement Plan to address.</p> <p><b>Recommendation</b>            No changes to the Review Report in light of this comment</p>
Dafydd Ioan Hughes	45	45/7	<p>I certainly agree that there should be a full re-analysis of a Development Plan and a new plan that looks at developing the Island and the Economy for the benefit of local people by promoting new businesses and providing quality housing. Amlwch is a perfect example where there is potential to develop and transform and modernise the town, by providing a new business park, supermarket and housing thereby supporting and growing the local economy and creating permanent standard jobs. As part of a Full Review and a new scheme specific to Amlwch, we have development land that has great potential in the middle of Amlwch town.</p>	<p><b>Note the Comment</b>            As part of the preparation of the Replacement Plan, the evidence base in this area will need to be revised and the latest evidence will be considered along with any Council strategies relating to the economy. This evidence will be used in considering the need for changes to the Plan's economic policies. It is not the intention of the Review Report to detail any specific changes that will be made to the Plan. Consideration will be given to the issue raised as part of the preparation of the Replacement JLDP.</p> <p><b>Recommendation</b>            No changes to the Review Report in light of this comment</p>
Park Leisure Ltd, c/o Lichfields	23	23/7	<p>Whilst the development of a Strategic Development Plan (SDP) in North Wales will likely strengthen interconnectivity across the region, the development of the SDP will take several years. Hence, it is important that needed investment and growth in this area is not delayed until this new regional tier of the plan-led system is adopted and that the Replacement Anglesey and Gwynedd Joint LDP is not delayed on account of the emerging SDP.</p>	<p><b>Note the Comment</b>            A review of the JLDP is a legislative requirement under the Planning and Compulsory Purchase Act 2004. The Act states that a Local Development Plan needs to be reviewed after a period of 4 years following its adoption. In accordance with national guidance, we must review the Plan every four years and prepare a Replacement Plan. The requirement of introducing the SDP under the Planning (Wales) Act 2015 is separate to the process of developing the replacement Plan.</p> <p><b>Recommendation</b>            No changes to the Review Report in light of this comment</p>

<p>John Wyn Williams, Plaid Cymru</p>	<p>48</p>	<p>48/7</p>	<p>There is currently an over-provision of student accommodation in Band and although the quota system has worked in some areas, there needs to be a better way of analysing what the real need is across the city for the future. There are quite a few affordable housing developments in the city, which is a good thing. Here again we need to look again at the needs assessment policies to avoid over-provision of some types of housing or more specifically single flats. There have been some problems with getting local residents and members to accept affordable developments, better evidence of the local need would help mitigate this. Bangor's high street is changing. The Bangor partnership and the City council have a vision for the future. This needs to be considered and much more flexible policies created. What will the high street look like in ten years?</p>	<p><b>Note the Comment</b> As part of the preparation of the Replacement Plan, the evidence base in the topic areas referred to will need to be revised and the latest evidence.
