### 5.2 Are you aware of any local consultation work that has been undertaken in the last year?

This is a list of the consultation work noted in response to this question in the Dolgellau area:

- Consultation on bus services
- There has been no formal consultation, however, the community council has worked with other bodies to ensure that the Aberllefenni to Aberangell road is re-opened as soon as possible.

### 5.3 Other issues relating to the 'Ardal Ni 2035' work that arose in the Dolgellau Area:

- We have faith in the civil service and in the system that statutory officers can make unbiased decisions for the benefit of the town taking the required considerations into account. If there are resources available, we would support having experts from other parts of the world to share experiences and to look at and offer improvements/alternative ways of working that have been a success. Learning from others.
- Our main priority at the moment is the ramp - we need this for visitors to continue to come to the area.
