1. Introduction

- 1.1** The purpose of the 'Ardal Ni 2035' project is to conduct a conversation and discussion with local communities to identify what matters to residents and how they would like to see the area develop in the next 10-15 years.
- 1.2** We intend to collaborate and jointly develop solutions with organisations, groups and individuals. At the end of the project there will be 13 specific regeneration frameworks that reflect the aspirations of local communities.
- 1.3** The first stage of the project was to conduct initial talks with Councillors, Community and Town Councils and local regeneration groups in order to establish:
 - What is good about the area?
 - What is not so good about the area?
 - What changes would you like to see happen in your area in the next 15 years, that would make your area a better place to live?
- 1.4** An invitation, together with area statements (namely booklets that summarised the main economic, social, cultural and environmental data) were sent to all Councillors, Community Councils and the main local groups.
- 1.5** Between September and November 2021 a discussion took place with **10** Community / Town Councils, organisations, groups and local Members in Bro Ffestiniog.
