**B (Key Findings and Actions – Form 5)**

<u>For:</u>	<i>New residential and nursing care home at Penyberth on the Penrhos site</i>
<u>Date form completed:</u>	<i>9<sup>th</sup> December 2022</i>

## **PARTS A: SCREENING and B: KEY FINDINGS AND ACTIONS**

### **Introduction:**

These forms have been designed to enable you to record, and provide evidence of how you have considered the needs of all people (including service users, their carers and our staff) who may be affected by what you are writing or proposing, whether this is:

- a policy, protocol, guideline or other written control document;
- a strategy or other planning document e.g. your annual operating plan;
- any change to the way we deliver services e.g. a service review;
- a decision that is related to any of the above e.g. commissioning a new service or decommissioning an existing service.

Remember, the term 'policy' is used in a very broad sense to include "...all the ways in which an organisation carries out its business" so can include any or all of the above.

### **Assessing Impact**

As part of the preparation for your assessment of impact, consideration should be given to the questions below.

You should also be prepared to consider whether there are possible impacts for subsections of different protected characteristic groups. For example, when considering disability, a visually impaired person will have a completely different experience than a person with a mental health issue.

It is increasingly recognised that discrimination can occur on the basis of more than one ground. People have multiple identities; we all have an age, a gender, a sexual orientation, a belief system and an ethnicity; many people have a religion and / or an impairment as well. The experience of black women, and the barriers they face, will be different to those a white woman faces. The elements of identity cannot be separated because they are not lived or experienced as separate. Think about:-

- ✓ How does your policy or proposal promote equality for people with protected characteristics (Please see the General Equality Duties)?
- ✓ What are the possible negative impacts on people in protected groups and those living in low-income households and how will you put things in place to reduce or remove these?
- ✓ What barriers, if any, do people who share protected characteristics face as a result of your policy or proposal? Can these barriers be reduced or removed?
- ✓ Consider sharing your EqIA wider within BCUHB (and beyond), e.g. ask colleagues to consider unintended impacts.
- ✓ How have you/will you use the information you have obtained from any research or other sources to identify potential (positive or negative) impacts?

6.	What might help or hinder the success of whatever you are doing, for example communication, training etc.?	<p>If the project capital funding is not fully approved by WG this will hinder the progress of the scheme.</p> <p>If the build tenders are returned with a total cost much higher than the approved funding level this could also put the project at risk.</p> <p>Workforce recruitment will also be key to the success of the project. A specific sub-group is being set up to progress the nursing and carer workforce model and staff training needs to address potential recruitment difficulties (in a semi-rural area) and to ensure care can be offered and delivered as much as possible in the Welsh Language.</p> <p>Communication on a local and regional level will be crucial to raise awareness, engender support and help the success of the proposed care home on the Penrhos site. An engagement plan is being drafted by the Penrhos Stakeholder Comms &amp; Engagement Group. A communications campaign will be organised by Clwyd Alyn's Communications Department in conjunction with Gwynedd Council Communications Team and BCUHB Communications Team.</p>
7.	Think about and capture the positive aspects of your policy that help to promote and advance equality by reducing inequality or disadvantage.	<p>The provision of a care home providing both nursing and residential care in the Pwllheli area will improve local access to nursing and residential care for older people, preventing the need to travel a long way from home.</p> <p>The proposal is assessed to have a positive impact across all the protected characteristic groups and a significant positive impact on two protected characteristic groups, in particular:</p> <ul style="list-style-type: none"><li>- Age (Older People including those with dementia)</li><li>- Disability</li></ul> <p>The positive aspects of this business case that help to promote and advance equality are:</p>

- It will support the rebalancing of the residential and nursing care market in Gwynedd by increasing delivery from the public / not for profit sector focusing on delivering person centred outcomes for all.
- It will support the provision of care closer to home by improving the accessibility of residential and nursing care.
- To support sustainability of local residential and nursing care provision through a collaborative, partnership approach which will integrate with the wider spectrum of care delivered from the Penrhos site
- To develop an innovative workforce model that will support the long-term health and social care needs of older people with the potential for application in other areas of North Wales
- To ensure purposefully designed accommodation which will meet the care needs of older people / individuals both now and into the future

### Form 2: Record of potential Impacts - protected characteristics and other groups

#### Please answer all questions

Please complete the next section to show how this policy / proposal could have an impact (positive or negative) on the protected groups listed in the Equality Act 2010. It is important to note any opportunities you have identified that could advance or promote equality of opportunity. This includes identifying what we can do to remove barriers and improve participation for people who are under-represented or suffer disproportionate disadvantage.

Lack of evidence is not a reason for *not assessing equality impacts*. Please highlight any gaps in evidence that you have identified and explain how/if you intend to fill these gaps.

**Remember to ask yourself this:** If we do what we are proposing to do, in the way we are proposing to do it, will people who belong to one or more of each of the following groups be affected differently, compared to people who don't belong to those groups? For example, will they experience different outcomes, simply by reason of belonging to that/those group(s). And if so, will any different outcome put them at a disadvantage?

The sort of information/evidence that may help you decide whether particular groups are affected, and if so whether it is likely to be a positive or negative impact, could include (but is not limited to) the following:-

- population data
- information from EqIAs completed in other organisations
- staff and service users data, as applicable
- needs assessments
- engagement and involvement findings and how stakeholders have engaged in the development stages
- research and other reports e.g. Equality & Human Rights Commission, Office for National Statistics
- concerns and incidents
- patient experience feedback
- good practice guidelines
- participant (you and your colleagues) knowledge

Protected characteristic or group	<p>Will people in each of these protected characteristic groups be impacted by what is being proposed? If so is it positive or negative? (tick appropriate below)</p> <p><i>for further direction on how to complete this section please click <a href="#">here</a> training vid p13-18)</i></p>	<p>Reasons for your decision (including evidence that has led you to decide this) A good starting point is the EHRC publication: <a href="#">"Is Wales Fairer (2018)?"</a></p> <p>You can also visit their website <a href="#">here</a></p>	How will you reduce or remove any negative Impacts that you have identified?
<p><i>Guidance for Completion</i></p> <p><i>In the columns to the left – and for each characteristic and each section here and below – make an assessment of how you believe people in this protected group may be affected by your policy or proposal, using information available to you and the views and expertise of those taking part in the assessment. This is your judgement based upon information available to you, including relevance and proportionality. If you answered ‘Yes’, you need to indicate if the potential impact will be positive or negative. <b>Please note it can be both e.g. a service moving to virtual clinics: disability (in the section below) re mobility issues could be positive, but for sensory issues a potential negative impact. Both would need to be considered and recorded.</b></i></p> <p><i>The information that helps to inform the assessment should be listed in this column. <b>Please provide evidence for all answers.</b></i></p>

				<p>All toilets and changing facilities will be gender neutral and will include a neutral (non-gender specific) colour scheme</p> <p><u>Evidence includes:</u></p> <p>Data on gender reassignment is not routinely collected. The section below is taken from a 2009 report from the Office of National Statistics, entitled '<u>Trans Data Position Paper</u>', which defines transgender as an 'umbrella term referring to individuals whose gender identity or gender expression falls outside of the stereotypical gender norms'.</p> <p>Currently, there are huge inconsistencies in population estimates of both transsexual people and the less clearly defined trans community. The Home Office '<u>Report of the interdepartmental working group on transsexual people</u>' based on research from the Netherlands and Scotland, estimates that there are between 1,300 and 2,000 male to female and between 250 and 400 female to male transsexual people in the UK. However, Press for Change estimate the figures at around 5,000 post-operative transsexual people. Further, GIRES claims there are 6,200 people who have transitioned to a new gender role via medical intervention and approximately 2,335 full Gender Recognition Certificates have been issued to February 2009.</p> <p>The figures are more diverse when looking at the trans community in the UK, where estimates range from 65,000 to 300,000. To put this in context, the former figure is close to the population of Inverness, while the latter is similar to the population of Cardiff (51,000 and 305,000 respectively). The variation above demonstrates that it is important to find accurate measures of the trans population at local and national levels. The absence of official estimates makes it difficult to ascertain the level of discrimination, inequality or social exclusion faced by the trans community.</p>

### Human Rights:

Do you think that this policy will have a positive or negative impact on people's human rights? For more information on Human Rights, see our intranet pages at: <http://howis.wales.nhs.uk/sitesplus/861/page/42166> and for additional information the Equality and Human Rights Commission (EHRC) Human Rights Treaty Tracker <https://humanrightstracker.com>.

The Articles (Rights) that may be particularly relevant to consider are:-

- *Article 2*      *Right to life*
- *Article 3*      *Prohibition of inhuman or degrading treatment*
- *Article 5*      *Right to liberty and security*
- *Article 8*      *Right to respect for family & private life*
- *Article 9*      *Freedom of thought, conscience & religion*

Please also consider these United Nations Conventions:

[UN Convention on the Rights of the Child](#)

[UN Convention on the rights of people with disabilities.](#)

[UN Convention on the Elimination of All Forms of Discrimination against Women](#)

### Welsh Language:

There are 2 key considerations to be made during the development of a policy, project, programme or service to ensure there are no adverse effects and / or a positive or increased positive effect on:

Welsh Language	Will people be impacted by what is being proposed? If so is it positive or negative? (tick appropriate below)				Reasons for your decision (including evidence that has led you to decide this)	How will you reduce or remove any negative Impacts that you have identified?
	Yes	No	(+ve)	(-ve)		
Opportunities for persons to use the Welsh language	-	√	√	-	<p>It is anticipated that the impact of this development will be positive in terms of the Welsh language.</p> <p>The care home will actively support the Welsh Language by increasing the 'active offer' of care delivery through the medium of Welsh within the new home. Most staff working in the care home are likely to be bilingual and older people and their families will have the opportunity to use the Welsh language, as they choose. In those instances where a Welsh speaking member of staff is not available, there will be opportunities to find another Welsh speaking member of staff where required.</p> <p>All signage within the new care home will be bilingual with Welsh first (on top / on the left).</p>	No negative impacts have been identified.

Treating the Welsh language no less favourably than the English language	-	√	√	-	<p>It is anticipated that the Welsh language will have equal parity with the English language and thus treated no less favourably.</p> <p>Both Gwynedd Council's Welsh Language policy and BCU's Welsh Language policy promote the importance and parity of the Welsh language.</p>	No negative impacts have been identified.																											

## Part A Form 4: Record of Engagement and Consultation

### Please answer all questions

Please record here details of any engagement and consultation you have undertaken. This may be with workplace colleagues or trade union representatives, or it may be with stakeholders and other members of the community including groups representing people with protected characteristics. They may have helped to develop your policy / proposal, or helped to identify ways of reducing or removing any negative impacts identified.

We have a legal duty to engage with people with protected characteristics under the Equality Act 2010. This is particularly important when considering proposals for changes in services that could impact upon vulnerable and/or disadvantaged people.

<p>What steps have you taken to engage and consult with people who share protected characteristics and how have you done this? Consider engagement and participatory methods.</p> <p><i>for further direction on how to complete this section please click <a href="#">here training vid p13-18</a></i></p>	<p>A project engagement plan is currently being drafted for consideration by the Stakeholder / Engagement &amp; Communications Sub-group. This will include a focus on people who share protected characteristics.</p> <p>In brief, the plan will comprise:</p> <ul style="list-style-type: none"> <li>• Gathering existing engagement info / data</li> <li>• Stakeholder mapping</li> <li>• Working in partnership sharing data</li> <li>• Developing a plan for communications</li> <li>• Devising an initial smart survey to gather views</li> <li>• Information events at regular intervals to share info and gather feedback with public / key stakeholders</li> <li>• Pull together themes from feedback into an engagement report to share with internal and external people</li> <li>• Identify / agree key changes to be made</li> </ul>
<p>Have any themes emerged? Describe them here.</p>	<p>Not undertaken yet – to be confirmed at later date</p>
<p>If yes to above, how have their views influenced your work/guided your policy/proposal, or changed your recommendations?</p>	<p>To be confirmed at later date</p>

For further information and help, please contact the Corporate Engagement Team – see their intranet page at:- <http://howis.wales.nhs.uk/sitesplus/861/page/44085>
