Subject: Taxi fare increase

Good morning,

For the attention of Gwynedd Council Licensing dept!! it has now been nearly 7 years (September 2019) since we had an increase on our Taxi meter tariff and life is definitely getting harder for all Taxi drivers with every day living and with the 5% increase every year for Council Tax... Cost of fuel now exceeding extortionate prices on the forecourt!!.. National wage now £12.71 from this year 2026.. I truly think it's about time that we had an increase now to cover the increasingly huge cost that we have to deal with on a daily basis.

Kind regards

Mark
